Surxondaryo viloyatida oliy ta'lim tizimi

Sifatli ta'lim olish odamlarning turmush sharoitini yaxshilash va barqaror taraqqiyotni ta'minlashga zamin yaratadi. Ta'limning qulayligi va sifati masalalari dunyoning barcha davlatlari strategik rivojlanish dasturlariga kiritilgan, chunki davlat aholining o'zini o'zi anglash imkoniyatlari uchun ta'lim muhitini yaratish orqali mamlakatda moddiy farovonlik va ijtimoiy-iqtisodiy barqarorlikni ta'minlashga, inson kapitalini oshirishga hissa qo'shadi, o'z o'rnida, mamlakatning iqtisodiy salohiyatini yuksaltiradi va xalqaro maydonda raqobatdosh ustunlikni yaratadi.

O'zbekiston Respublikasida jinsi, irqi, millati, tili, dini, ijtimoiy kelib chiqishi, e'tiqodi, shaxsiy va ijtimoiy mavqeyidan qat'i nazar, har kimga ta'lim olish uchun teng huquqlar kafolatlangan.

Savodsizlikka barham berish va barcha fuqarolar uchun arzon ta'limni ta'minlashda katta muvaffaqiyatlarga erishgan O'zbekiston, ta'limni davlat tomonidan moliyalashtirishning ustunligini saqlab kelmoqda, bu shubhasiz ijobiy omildir.

O'zbekiston Respublikasida **oliy ta'lim** uzluksiz ta'lim tizimining mustaqil turi bo'lib, respublika qonunchiligiga muvofiq umumiy o'rta va o'rta maxsus, professional ta'lim negizida oliy ta'lim tashkilotlarida amalga oshiriladi.

Oliy ta'lim sohasidagi davlat siyosati quyidagi tamoyillarni o'z ichiga oladi:

- milliy istiqlol g'oyasi asosida yuqori malakali kadrlar tayyorlash;
- ta'lim va tarbiyaning insonparvarlik, demokratik xususiyati;
- umumiy o'rta, o'rta maxsus, professional, oliy va oliy ta'limdan keyingi ta'limning uzluksizligi va izchilligi;
- ta'lim tizimining dunyoviy xususiyatga egaligi;
- davlat ta'lim standartlari doirasida ta'lim olishning hamma uchun ochiqligi;
- o'quv dasturlarini tanlashga doir yondashuvning yagonaligi va tabaqalashtirilganligi;
- bilimlilik va iste'dodning rag'batlantirilishi;

Oliy ta'lim tizimi quyidagilardan iborat:

- oliy ta'lim yo'nalishlari va mutaxassisliklari bo'yicha davlat ta'lim standartlariga muvofiq, fanlarning dasturlari va o'quv rejalarini amalga oshiradigan davlat va nodavlat oliy ta'lim tashkilotlari;
- oliy ta'limni normativ-huquqiy va ilmiy-uslubiy ta'minoti bo'yicha ilmiy-tadqiqot ishlarini olib boruvchi ilmiy-pedagogik muassasalar;
- oliy ta'limni boshqarish bo'yicha vakolatli davlat organlari, shuningdek, ularga bo'ysunuvchi korxonalar, muassasalar va tashkilotlar.

Oliy ta'lim ikki bosqichga — bakalavriat va magistratura bosqichiga ega.

Bakalavriat oliy ta'lim yo'nalishlaridan biri bo'yicha chuqurlashtirilgan bilim, malaka va ko'nikmalar beradigan, o'qish davomiyligi kamida uch yil bo'lgan tayanch oliy ta'limdir. Dastur yakunida davlat komissiyasi tomonidan bitiruvchilarga o'qish yo'nalishi bo'yicha "bakalavr" malakasi beriladi va tasdiqlangan namunadagi diplom topshiriladi.

Magistratura tegishli bakalavriat negizidagi aniq mutaxassislik bo'yicha o'qish davomiyligi kamida bir yil bo'lgan oliy ta'limdir. O'qishni tugatgandan so'ng bitiruvchilar ma'lum bir mutaxassislik bo'yicha diplom va magistr darajasiga ega bo'ladilar.

O'zbekiston Respublikasida quyidagi oliy ta'lim tashkilotlarining turlari mavjud: universitet, akademiya, institut (ularga tenglashtirilgan oliy o'quv yurtlari).

Universitet – eng keng mutaxassisliklar bo'yicha oliy yoki oliy ta'limdan keyingi ta'lim dasturlarini taklif qiladi.

Akademiya – alohidagi ilmiy sohalar va yo'nalishlar bo'yicha oliy va institutdan keyingi ta'limning pedagogik dasturlarini amalga oshirish bilan shug'ullanadi.
